

Doings In the Superior Court

THURSDAY
State vs Genevieve Kenaday, colored. On charge of murder of Dan Danielson at Courtland on January 27th, last. The following jury was empaneled:
W. L. Cook, James Lamb
F. W. Freeman, Thos. Mounier
A. E. Griswell, L. Shirley
F. Ames, C. H. Wiley
J. Spikes, John Nargent
Jam. Johnson, E. Curtis

In the examination for a jury the panel was closely questioned as to capital punishment and question of infliction of death penalty on a woman, if found guilty. But few were disqualified on either ground and the required 29 jurors were secured after examination of 41 of the venire. The case proceeded to trial this afternoon and will probably last until tomorrow, the prosecution having 24 witnesses to examine and the defense also has quite a number. The particulars of this case are familiar to our readers, details of the killing having been published at the time.

State vs Leonard.—Motion filed for a certificate of probable cause and motion denied. Notice of appeal filed.

State vs Wright on charge of forgery. This case was submitted to the jury about 11 o'clock this morning and at 3:30 p.m. no verdict has as yet been reached and jury still out.

FRIDAY
Lena York vs L. C. York; judgment for plaintiff.

State vs B. Elias, defendant entered plea of guilty of attempt to forge check and was sentenced to not less than one year nor more than 7 years.

State vs Fred J. Wright; jury returned a verdict of guilty of forgery with recommendation of mercy of the court. This is the Douglas case on charge of forging a time check for \$65. A motion for new trial was filed and denied.

State vs Genevieve Kenaday; jury returned verdict of guilty of manslaughter. The defendant, who is a colored woman was on the stand in her own behalf and claimed she did not fire the fatal shot, her contention being that she shot was fired during the scuffle for the gun.

The Kenaday case was both sensational and remarkable in many ways aside from the fact that the defendant was a woman. Attorney Kinglety made a strong legal fight for his client both in examination and argument. Assistant County Attorney Murry handled the prosecution ably, distinguishing himself in masterly and forceful argument before the jury. The conviction of a woman on a murder charge is one of the first in Cochise county.

Jurors Fred Harris, Jesse Yeakum, A. M. Smack, M. Wartenberg excused for the term.

No jury cases are set for tomorrow and the trial jury has been excused until Monday at 9 a.m.

C. W. Phillips who was brought here from Bisbee was examined as to his sanity and ordered committed to the asylum, Drs. Hughtart and Bailey acting as examiners. The unfortunate has a vision of great wealth and has a religious mania. He is 28 years of age.

The County Attorney's office is making an excellent record of convictions at this term of court and County Attorney Gimore and Assistant Murry are receiving many deserved compliments on their notable success.

Big Fee Paid to Corp'n Commission

The largest fee ever paid to the corporation commission of Arizona, \$5,534, was handed over to the state Tuesday morning by Frank Cox, general attorney for the Southern Pacific lines in Arizona, at the state capital. The fee was paid for a certificate issued by the commission, permitting the Southern Pacific to issue \$10,120,000 in trust certificates to the Commercial Trust company of New York, from whom the Southern Pacific leases all of its operative equipment. The same fee was paid last week in California.

Doings in the State Legislature

SENATE
S. B. 26, providing for the immediate selection of one million acres of land, granted in the statehood act to enable the counties of Maricopa, Pima, Cochise and Yavapai to pay off the railroad bonds outstanding against them, passed.
H. B. 16, the board of health code was passed.
S. B. 44—By Lovin, came up for a second reading as amended for regulation of resorts of questionable character.

HOUSE
By far the most important bill that the house passed yesterday is No. 23, C. R. Wood's general taxation law. Kirk Moore was alone in his opposition.

Linnay's \$10,000,000 bond issue for good roads passed. Jacobson was the only one who voted "no."

The following code bills from the senate were passed: No. 10, contempt of court; No. 12, adoption of children; No. 11, initiative and referendum; No. 7, license and occupation taxes. All were without opposition except No. 7, against which Crofoot cast his vote.

H. B. 28—By Kerr, to prevent the spread of noxious weeds, was passed.

The senate's request that S. B. 5, the weights and measures code, be returned, was granted. It was discovered that oats and coal were left out of the bill entirely.

H. J. R. 5—By Drennan, directing the board of control to annotate and compile all laws relating to Arizona lands.

HOUSE
Graham's mine tax bill was recommended for passage by the house committee of the whole Wednesday afternoon. All attempts to change the bill were defeated.

This measure, house bill 21, fixes the value of a producing mine for assessment purposes at 300 per cent of its net production and 125 per cent of the gross output. This is in addition to the physical value of improvements such as buildings and machinery.

The assessment of non-producing mines is left to the county authorities.

An important amendment was recommended to be added to senate bill No. 41, relating to estates and wills. This is that at the death of a husband or wife half the community property go to the one left behind. The other half can be distributed in accordance with the will of the deceased, if there be no will, in equal portions to the children.

The judiciary committee recommended the passage of senate bill No. 30, the code regulating common law practice and admittance to the bar.

The following senate bills were referred: No. 24, working convicts on state roads, to appropriations committee; No. 27, Hughes' amendment to the miners' lien law, to judiciary committee; No. 34, for the relief of squatters on school lands to lands committee; No. 35, requiring that checks for labor be on banks within the state, to corporations committee.

SENATE
By a vote of 14 to 4, the senate passed senate bill No. 44, for the regulation of houses of prostitution. House bill No. 8, the horticultural commission code, passed.

All the afternoon was spent in discussing house bill No. 17, the general election code, in committee of the whole.

Clever Counterfeiter in This Section
A counterfeiter skilled in raising bills is believed to be in southern Arizona and may be in this section. One example of his handiwork has turned up at the Consolidated National bank at Tucson. The bill is the ordinary silver certificate and has been raised to \$10 by pasting the figures of a \$10 bill over the numerals in the corners and by blurring, covering or erasing the numerals in the other lower corners of the face and on the back.

The work is so cleverly done as to deceive one not accustomed to paying close attention to bills.

As a bill will be redeemed if two-thirds of it are intact, the counterfeiter easily could secure the numerals of \$10 bills by tearing off the corners.

Interesting Notes From Huachuca

HUACHUCA, Ariz., April 24—President John Belser of the West-stone Copper Mining and Smelting Co., operating on a lease in the Weststone district, twelve miles northwest from here, was a visitor in town this week, coming in to place an order for additional material and supplies, which are needed in the prosecution of the work now under way. Mr. Belser has doubled his force this week at the mine; where he is driving a drift to strike the contact of a large body of copper ore which crops on the top of the ridge about two hundred feet from the point of entrance. The drift is in highly mineralized primary rock, with certain dolomite overlying the primary formation, and at the present is in about seventy-five feet, and as the overlying formation dips to the southeast at an average angle of about twenty-five degrees, it is expected that the contact will be struck at an approximate depth of three hundred feet, which will virtually give him more than 600 feet of stopping ground overhead, at place of contact, according to the average pitch. Mr. Belser is much enthused at the showing thus far, and expects to begin shipping ore within the next month, when regular shipments will be made from this point.

Thirty-five carloads of cattle were shipped from this point last week to Montana, where they are to be put in pasture. This is the first shipment of Wm. Cowan's cattle which were contracted to Olsen & Olsen, of Billings, Mont. The next delivery will be made May 10th. The price was \$18.50 all around, this year calf crop, however, is not tallied.

Tom Larrieu returned this week from Nogales where he went to place an order with Roy & Titcomb, for a big centrifugal pump, which he will install on his ranch this summer.

The Southern Pacific Company has just finished installing a pumping plant here, and have placed pipe lines and troughs in their shipping pens and the depot, which to say the least, is a decided improvement and convenience to shippers. Gasoline does the business, and the agent has a new official title as a result, he being in charge of the pump.

Hold Conference on Cananea Situation

Following the arrival of J. S. Douglas and S. P. Applewhite in Douglas Dr. L. D. Ricketts, former general manager of the Cananea Consolidated Copper company, and George B. Kingston, arrived for a conference regarding the future plans of the company. Under the existing circumstances, the plant will probably be entirely shut down in the near future. Not only has the company been unable to appoint its own officials, but the railroad problem will also necessitate the discontinuing of the small amount of work being done at the present time.

The Southern Pacific of Mexico still continues in its refusal to cross rolling stock now on the American side to Mexican territory. The entire system south of Nogales is being run by the state troops, the company deriving no revenue from the operation of the road, the state troops even refusing to honor the passes of the officials of the company, when they travel on their own road. In some instances the passes presented for transportation have been destroyed by those operating the road.

The ice cream social given last evening under the auspices of the Ladies of the Catholic church proved a great success. During the evening ice cream and cake was served and the affair was well patronized. Mrs. Jas. McHugh was the winner of the beautiful hand-painted tea set at the drawing and the ladies report a neat sum, which goes toward the church fund. Those in charge wish to extend thanks for the liberal patronage extended.

Fred Bennett, foreman of the Wagon Road outfit of the Boquillas Land and Cattle Co., is in the city today for a brief visit.

Fletcher Goe, the man who is accused of killing John Erickson in Courtland last week, was brought to Douglas by Deputy Sheriff Howe yesterday and bailed out in \$5,000 bonds. The bonds were furnished by J. Scherer and Dr. L. W. Brown of Douglas, and deposited with Judge Mackey of that city.

J. S. Williams, ex-district attorney is a visitor in Tombstone today from Warren on business.

J. N. McFate and wife returned to Nogales today after a short visit with friends in the only Tombstone.

J. N. Christensen returned to his home at St. David today after a few days here on court.

Arrangements are under way for a grand ball at Gage Hall. Good music will be rendered by the Ivey Grechstra and a good time is in store for all. Don't miss it—Saturday night.

P. G. Madigan, the well-known Benson business man, arrived this morning on a brief business mission.

Constable W. J. Bennett is numbered among the county peace officers, in Tombstone on official business.

Attorney Albert M. Sames, U.S. commissioner at Douglas, is an arrival in Tombstone from the Smelter City on court matters.

Jeff Milton, immigration inspector at Fairback, is in the city on the lookout for stray chicks.

County Seat Bill Before Committee
The county seat removal bill is now before the county affairs committee in the house. It is understood that the house committee will recommend that the Robert's amendments be struck off, that the percentage to initiate an election be placed at thirty, that more than sixty per cent of the votes must be in affirmative before county seat can be removed, and that county must erect suitable court house and jail before county seat will be moved.

The bill still carries much unjustness to prevailing county seats which is expected to be remedied before the bill finally passes. An effort to have property qualifications on petitions for removal, and a more fair method of balloting on the question is urged in which the cupidity of rival cities as aspirants may not be pitted against a county seat.

The dangers of proposed county seat removal legislation as applied to each county, is making itself felt among the Arizona solons and the legislators are wisely making haste slowly.

John Ferris, Jr., son of John Ferris, banker of Indianapolis, will travel northward from Tucson this summer in a camping wagon, to gather data for a book he is writing. The wagon has just arrived in Tucson and is calculated to making camping de luxe. Acetylene lights, canvas awnings to shield the camper from the glare of the sun, a folding table attached to the rear, sleeping quarters and kitchen fitted with range and cooking utensils, are some of the features. It will be drawn by two span of mules. Ferris will travel at his leisure and may get so far as the White mountains. He will take companions.

Reveals Lodge Secrets and Commits Suicide
Because he had revealed certain secrets of the Masonic order, Ernest Louis Johnson, a Tucson mining engineer whose home is in Jersey City, New Jersey, committed suicide with potassium cyanide at the Roy Hotel at Douglas Wednesday.

The letter which explained the reason for the deed read as follows, and is addressed to Robert Mitchell, 714 South Third Avenue, Tucson, Arizona.
"Dear Sir and Friend: I had not an inkling until two days ago that I had committed a crime against Masonry. That's the way the world goes. I am going to pay for it with my life. Goodbye, a misguided man."
(Signed) E. L. JOHNSON.
Enclosed was also a letter addressed to his mother who lives at 1001 Cottage street, Jersey City, in which he advised her about certain money matters and the disposing of certain property.

Another Step Toward Reorganization
Advice received here from eastern financial circles state that the Equitable Trust company of New York, as trustee under the first mortgage collateral trust indenture of this company, sold the stocks deposited with it at Jersey City, April 18. The property includes 400,000 shares of Tombstone Consolidated Mines Company, Ltd., 135,000 shares of Poland Mining Company, 500,000 shares of the Congress Consolidated Mines company, Ltd., 250,000 shares of the Imperial Copper Company, and \$2,211,340 in certificates of indebtedness of the Poland Mining company. This is but another step in the legal movement to reorganize all of the properties of the Development Company of America.

"Marry in Haste, Repent at Liesure"
"Marry in haste, repent at liesure," was the basis of resolutions passed by the Episcopal convocation at Nogales when it approved the passage of a bill now before the state legislature requiring that marriage licenses be obtained five days before the date of marriage.

Divorce statistics prove that one of the most common causes of divorce is hasty marriages and the object of the bill is to prevent this kind of marriage.

The convocation endorsed the bill before the legislature forbidding the marriage of unit persons.

The convocation also considered several other bills now before the legislature. The new divorce bill was discussed but no action was taken, although some favored the provisions of the measure. The Episcopal church recognizes only one ground of divorce, adultery, while the law recognizes eight. Therefore, while believing that it was an improvement on the present law, the convocation did not consider that it could consistently endorse the bill, though no protest was considered.

Mr. Dixon introduced a resolution declaring that the movement to change the name of the Episcopal church to the American Catholic church was ill-advised at this time, and memorialized the national convocation to retain the present name.
